

The Raines Group announces that **Stephanie Masterson** has earned the Certified Relocation Professional® (CRP®) designation. Congratulations to **Stephanie Masterson** for earning the prestigious CRP® designation through Worldwide ERC® (WERC®), the workforce mobility association!

The exam tests candidates' command of corporate mobility programs and policies, real estate, tax considerations, transferee counseling, service delivery, and other topics. Exam content is developed under the guidance of a WERC® CRP® Certification Review Board and is administered by Meazure Learning.

"In this highly competitive talent landscape, businesses and employees place tremendous value on the acquisition of new skills and opportunities for ongoing learning," said 2020-2022 CRP® Certification Review Board Chair Mickey Calantropio, SCRP.

The program was introduced in 1990 to formally recognize individuals who demonstrate a comprehensive knowledge of the principles and practices of U.S. employee relocation. More than 11,000 individuals have earned the credential since its inception. CRPs® retain their designation by maintaining membership in the association and earning 30 education credit hours within each 3-year period following their initial certification, ensuring that they remain current on evolving industry trends.

About WERC®

WERC® is a global not-for-profit organization committed to connecting and educating workforce mobility professionals across the globe since 1964.

Our network of professionals, partners, and stakeholders includes nearly 1,600 corporations and 10,000 service industry members across Asia, the Americas, the Middle East and Africa, and Europe.
